

2016-2017 Welcome

We would like to welcome the class of 2020 to the West Noble High School and welcome back the returning classes, as well.

After a year of change at the high school with the implementation of 1:1 technology, transition from State mandated ECA testing to ISTEP, and Achieve 3000 for EL instruction we are looking forward to a more intensely focused year to refine what has been put into place. Students and parents please be aware of the many options for dual credit college courses that we offer at the high school with over 30 credit hours possible by graduation. Please contact Guidance for more information.

We would like to thank Mr. Roth for teaching our students at WNHS for many years and we wish him the very best in his retirement. Joining our teaching staff is Mr. Wyatt Tuggle in the P.E. Department and Mr. Justin Maurer in Business. Welcome to you both!

I want to encourage all students to become involved in one or several of the extra-curricular activities that are offered at the high school. Studies have shown that students who are involved in extra-curricular activities perform better academically, have better attendance, and are less likely to have discipline issues. West Noble High School has 18 different sports as well as more than 15 different clubs or organizations from which to choose. Non-athletic offerings include: robotics, drama club, Business Professionals of America, student council, FCCLA, and many more. Please inquire as to what we have to offer and find a place in which to plug in and become a part!

One of the highlights from our last school year was the implementation of 1:1 technology. Through Google Forms, we collected data that shows our students are using technology to communicate what they have learned, get faster feedback, collaborate, and access an audience much larger than West Noble. They are using programs to prepare them for college and the workforce in ways not possible before. Our digital learning goal is to create an engaging and personalized education, and we are well on our way. In this new school year we would like to continue to focus on creating ways to keep students at the center of learning.

Parents, INOW offers an excellent way to stay connected and involved in your child's education by accessing the parent portal to keep track of assignments, grades, and attendance. INOW access can be obtained by calling Mrs. Phares at extension 3000. If you have any questions about your child's education please feel free to contact one of the administrators, guidance counselors, or emailing the teacher directly. We want to continue to provide the best education possible and know that the most effective way is to have the parents involved with us.

We are looking forward to a great year!

Dr. Gregory Baker, Principal
