

Welcome to the 2017-18 School Year.

I hope each of you had a wonderful summer break and that you are looking forward to a great school year. I know I am.

Several changes will be seen on campus as you return this year. One of the first things you will notice is that the majority of the roads on campus have been resurfaced. There is a new press box at the football field. Inside the building, the cafeteria flooring has been replaced. The main gym is in the process of having a new floor and bleachers installed. Unfortunately, this will not be completed at the start of the school year.

Several new staff members will start the year. Mrs. Stackhouse is replacing Mrs. Gibbons who retired this summer, teaching English and EL. Mr. Grady will be teaching in the math department in place of Mrs. Revoir. Mrs. Ruvalcaba will be the program assistant for the EL program as well as helping with translating.

Information you need to know:

- Chromebooks will be distributed during class meetings.
  - Freshman and Seniors on Monday the 14th.
  - Sophomores and Juniors on Tuesday the 15th.
- Seniors will also be meeting with the the Herf-Jones representative to start arranging items needed for graduation
- The high school does not have a list of needed classroom supplies posted due to the variety of classes taken. Teachers will inform students as to what items will be needed.

If you have any questions please contact one of the administrators.

Let's make it a great year!

Sincerely,  
Dr. Greg Baker, Principal  
West Noble High School
