

How to Print from a Chromebook to a WN Printer

Connect a classic printer

One-time Setup:

1. Log in to your user account on a school Windows computer.
2. Open Google Chrome 
3. At the top right, click  and then **Settings**.
4. At the bottom, click **Show advanced settings**.
5. Under "Google Cloud Print," click **Manage**.
6. If prompted, sign in with your Google Account.
7. Select the printers you want to connect, and then click **Add printer(s)**.

The printer is now associated with your Google Account and connected to Google Cloud Print. You can print to this printer whenever you're signed in with the same Google Account on your Chromebook. Your print job will be held until you are logged in to Google Chrome on your Windows computer.
