

Welcome to West Noble Elementary.

Although it is still summer, we eagerly anticipate the start of another new school year in August. We will kick off the 2017-2018 year with our "Back to School" Open House. It will be held on August 10 from 4:00-5:30 pm. Kids and parents are invited to come anytime during these hours to meet their child's teacher and to learn some of things that will be happening throughout the school year.

Each year we have transitions and changes. We say good bye to our 4th graders as they head to the middle school. We say hello to a new group of 2nd graders who come to us from West Noble Primary and our returning 3rd and 4th graders. We also have transitions in our staff. This year we are welcoming seven new staff members to West Noble Elementary, which will add to our already outstanding team!

We will also continue to recognize student excellence through Life Skills Awards programs, serve our community with the canned food drive and other philanthropic projects, foster college and career readiness with No Excuses University, develop leaders through our Student Council, and promote fitness with our Walking Club. We will also have several Parent University events. These are opportunities for parents to learn more about what is happening at WNE and get involved with their child's education. And of course, we will continue our tradition of excellence in the fine arts with a music/art program for each grade level and other extracurricular events.

We are also excited about the addition of a Makerspace lab. Each week, students will participate in Makerspace as one of their special classes. Students will have the opportunity to work together to explore, discover new ideas, create and build projects. Makerspace is very hands on and fosters ingenuity, creativity, problem solving, and teamwork.

Thank you for the wonderful support you have shown and will continue to show for our school and our students. Together we can create a safe, nurturing, and welcoming school environment that provides the best education for every student.

Sincerely,

Mr. Mark Yoder, Principal
West Noble Elementary School
